"Digital Literacy for Students: Tools, Safety & Online Presence"

"Empower your knowledge and online security"

What is Digital Literacy?

Digital literacy is the ability to effectively use digital technologies to find, evaluate, create, and communicate information responsibly.

CRITICAL ANALYSIS
Analyze information sources for accuracy and credibility.

COMMUNICATION.
Share ideas and collaborate effectively and respectfully online.

RESPONSIBLE CREATION.
Collaborate and publish digital content ethically and with attribution.

Useful Digital Tools for Students

Google Docs, collaborative document writing and editing in real-time.

Notion. All-in-one workspace for notes, tasks, and projects.

Grammarly, an advanced writing assistant for clear and error-free communication.

Canva, user-friendly graphic design platform for creative projects.

Zoom / Microsoft Teams Virtual meetings, video conferencing, and team collaboration.

Safe Internet Practices

- **Strong Passwords.** Create unique, complex passwords and use a password manager.
- **Enable Multi-Factor Authentication (MFA).** Add an extra layer of security to your accounts.
- **Be Wary of Phishing.** Avoid clicking suspicious links or downloading unknown attachments.
- **Keep Software Updated.** Regularly update your devices and applications for the latest security patches.
- **Use Secure Connections (HTTPS).** Ensure websites are secure before entering personal information.

Online Presence

Mind Your Digital Footprint. Remember that online actions are permanent. Think before you post.**Manage Privacy Settings.**Review and adjust privacy settings on all social media and platforms.**Practice Respectful Behavior.**Engage constructively, avoid cyberbullying, and treat others with kindness.
